

CSR Health and Safety Awareness Course

Launched in 1997, the Construction Skills Register (CSR) is a registration scheme designed to meet the needs of both clients and contractors and to improve the Health & Safety standards of the industry. To receive a CSR card at any level, anyone entering a construction site from apprentices to managers must undertake health and safety training. The health and safety training focuses on the identification of hazards and the avoidance of risks.

This one-day course provides the appropriate level of training for all operatives who are required to undertake work on a construction site.

Who should attend:

- All site Operatives
- Those requiring renewal of existing cards

Applicants interested in applying for Blue Skilled or Gold Craft CSR card will be asked to provide an appropriate NVQ qualification in addition to the course.

Course Contents:

Foundations of Health & Safety
Mental Health
Accident reporting and emergency procedure and fire prevention
Accident prevention
Risk Assessment and Method Statements
