IOSH Working Safely

Duration: 1 Day

Overview: Working Safely is a one-day course for staff from any sector with no supervisory or managerial responsibility. It provides a grounding in the essentials of health and safety – everyone at work should have an understanding of why they must 'work safely' and this course offers exactly that. Working Safely introduces a completely new approach to health and safety training and offers all the basics in a high impact interactive package

- Carry out work activities without risk to themselves or others and understand the consequences to both the individual and their organisation if they fail to work safely.
- Identify hazards, risks and risks controls and understand the importance of risk assessment with examples of everyday use of risk assessment.
- Understand how to take appropriate workplace precautions and their importance in the working environment.
- Appreciate the importance of a health & safety management system.
- Identify lines of communication with respect to health & safety in their place of work.
- Identify safety signs and signals.
- Understand emergency, accident plans and procedures and how and who to report accidents, incidents and near misses to, in their place of work.
- Recognise how industry affects the environment and how individuals can minimise pollution and waste.

Content:

- Module 1 – Introducing working safely
- Module 2 – Defining hazard and risk
- Module 3 – Identifying common hazards
- Module 4 - Improving safety performance
- Module 5 – Protecting our environment

Assessment: Multiple-choice paper
