

IOSH Safety Health and Environment for Construction Managers – Re Certification

Duration: 2 Day

Overview: This is a two-day course designed for those delegates who have already completed the full IOSH Safety, Health and Environment for Construction Managers Course. It aims to refresh aspects from the original course and further enhance the delegates' knowledge and skills beyond those covered on the original course.

Objectives:

- Outline the key elements of Successful Management Systems based on HSG 65
- Outline the key elements of the Loss Management Model and general Principles of Risk Assessment
- Advise delegates of the changes in legislation, HSE (NI) Guidance and British/EU standard affecting the construction industry.

Content:

- Managing Safely
- Reactive monitoring
- Risk Assessment and Risk Control
- Health & Safety Legislation
- Common Hazards
- Active monitoring
- Safety Management
- The Construction (H&S and Welfare) Regs
- CDM Regulations
- Protecting the Environment

Assessment: Multiple-choice paper given at the end of the course

This course is CITB approved for grant aid to registered companies.
Delegates who successfully complete this course will receive a certificate, valid for 3 years.
