

NEBOSH Diploma in Environmental Management

Duration: 16 Days lectures (one day per week) + practical assessment & exam

Overview: The NEBOSH Diploma in Environmental Management is designed for individuals with responsibilities for the management of environmental risk in relation to the damage caused by work activities. It will be invaluable for those aiming to develop and implement effective environmental management systems within their organisations. Holders of this diploma will be able to advise their organisation on the environmental impacts of their activities, on their legal obligations and on the means of continuously improving their environmental performance as part of an integrated management approach.

It is particularly suited to Health and Safety Practitioners who wish to extend their NEBOSH qualifications. However, a health and safety background, although recommended, is not a pre-requisite for the course, and delegates come from a variety of disciplines seeking detailed knowledge on environmental management techniques.

Content: Management of Environmental Risk (Unit ED1)

- Principles of Environmental Risk Management
- Environmental Risk Evaluation
- Control Strategies for Environmental Risk
- Monitoring, Review and Audit
- Developments in Environmental Legislation
- Environmental Legislative Framework and Methods of Enforcement
- Public Access to Environmental Information
- Civil Liability in Relation to Environmental Pollution
- Solid and Liquid Wastes
- Gaseous and Particulate Releases to Atmosphere
- Water Resources Management
- Control of Environmental Nuisance
- Hazardous Substances
- Environmental Implications of Development and Land Use
- Energy Use and Efficiency

Workplace-Based Practical Application (Unit ED2)

Application of environmental risk theory and practice

Assessment: Exam (ED1) & Practical Assessment (ED2)

This course is CITB approved and grant aid may be available for those companies registered with CITB or Invest Northern Ireland.
